

Our K 2019 partners

By collaborating with industry innovators, we're helping to find sustainable solutions to some of the world's biggest challenges. K 2019 gives all of us an exceptional opportunity to celebrate these relationships and show what they can achieve. That's what our machine manufacturers partner program is all about.

We're proud to be partnering with 20 machine manufacturers at K 2019. At their stands and open-house events, you can see Dow products being used across a variety of cutting-edge machines and technologies. Don't miss these demonstrations.
